## Program Notes

### Keys Trio

The piano trio in g minor is Clara Schumann's only trio, written in 1846. This work was composed during a difficult time in the lives of Clara and her husband Robert Schumann, as he was very ill. At the time of this composition, she was staying in Dresden, Germany. Despite the personal difficulties, the trio is intricately both poignant and joyful. The andante is colorful and dramatic, with bittersweet and calm moments to close the movement. In the Allegretto, the voicing intertwines in a charismatic fugue pattern, with a high energy finish to the trio.

Carole King's beautiful song (You make me feel like a) Natural Woman was made famous by singer Aretha Franklin in 1967. The Keys trio loves to move through many genres of music, including our favorite ballads. We hope you enjoy!

### Nadia Moiseyeva

“Edren Dinges” is a Tatar folk song. Edren Dinges means Adriatic Sea.

“The foamy waves of the sea washed away many of the bloody wounds of the heroes. Sea of Edren, return the power of your mighty waves to hero Iskander.”
